**Sample Company**

**Project:** Sample Certificate of Conformance

**Project location:** US and Canada

Certificate of Conformance

MasterLife<sup>®</sup> 300D

Integral Crystalline Capillary Waterproofing Admixture for Concrete

I, Richard Hubbard, Sr. Technical Marketing Specialist for Master Builders Solutions US LLC, Cleveland, Ohio, certify:

That MasterLife 300D admixture is an integral crystalline capillary waterproofing admixture for concrete; and

That MasterLife 300D admixture and Rheomac 300D admixture are the same product having identical composition, differing only in designation; and

That MasterLife 300D admixture is also available in a red-pigmented version; and

That neither calcium chloride nor any chloride-based ingredient is used in the manufacture of MasterLife 300D admixture; and

That MasterLife 300D admixture is certified by NSF to NSF/ANSI Standard 61-Drinking Water System Components-Health Effects, and that it is therefore suitable for use in properly cured concrete structures in contact with potable water; and

That MasterLife 300D admixture meets the requirements for a Type S, Specific Performance Admixture specified in ASTM C494/C494M and AASHTO M194, the Standard Specifications for Chemical Admixtures for Concrete.
